Deutscher Commercial Internet Exchange

We have a new office in Frankfurt

„Your Gateway to Central and Eastern Europe“

Next time you're around why don't
you drop in for a coffee?

Or a chat?

We also have some space to present and test the newest hardware...

...and room to host trainings,
meetings and conferences (up to

- new east european / asian markets
 - new members from "emerging markets" and asia
 - still a lot of requests from these markets
 - new lines connected via russia and the pacific
- new site by the end of the year
 - planning is going on for installing a site in the campus of kleyerstr. / rebstöckerstr.
 - about 6 colo-providers in an area of aprox. 400meters
 - A lot of voice- and dsl-providers connect there

- **constant growth in members**
 - 174 Members, 271 Ports connected
 - total connected bandwidth of 314.2 Gbit/s
 - about 20% growth per year

- **traffic is also going up**
 - about 60 Gbit/s Traffic on public Infrastructure
 - aprox. 100% growth per 10 months
 - a lot of members upgrade to 10 Gig-Links
